It's...well, I'm not sure. But it lets my imagination run loose, unbridled, and wild.

**Inspiration is uniquely personal.** At Alain Pinel Realtors, we think about that a lot because in addition to their passion for residential real estate, each of our Realtors has a fascinating combination of interests and abilities that ultimately led them to us.

We are looking for more individuals like this. We seek people who bring themselves to their businesses, in addition to their credentials. That's why you are receiving this postcard. You don't have to already be a top producer-just aspire to becoming one.

My card is enclosed and I'd love to speak with you about the career possibilities with us. Thanks for your time, and I look forward to speaking with you.

**As winemakers know,** each season has its own lessons. It takes the wisdom accumulated over many seasons-and patience-to be able to shape the results consistently enough to build a reputation. Alain Pinel Realtors are outstanding individuals who understand that each client, each property, and each encounter shape their success. It's one reason why APR has earned its high reputation.

We think that you may be one of these individuals. If you have ever thought of working with us, I'd love to speak with you about career possibilities. Enclosed is my card. Please call-I look forward to speaking with you.

**One can look** at a listing as a pile of paperwork to be completed, ads to be run, and a deal to be closed. Or you can also look at the story behind the transaction. A person, a couple, a family-a property's owner has arrived at a point in life where several factors result in a home being purchased or sold.

You're the one who helps author their next chapter. We're looking for individuals who understand that, because you are the kind of person we have built our reputation on. Would you consider spending an hour to discuss the possibility of a career move to Alain Pinel Realtors? My card is enclosed. I hope to speak with you soon.
